LAFAYETTE.

Easton, Penn., April 7 (Special).-Professor Coffin had a thrilling experience on Thursday. Several blasts of dynamite were set off on the new athletic grounds, and large quantities of small stones were shrown on the college grounds. Many struck the symnasium, breaking slate on the roof, windows, cornices and the like. Professor Coffin was passing at the time, and though the stones fell all around him he managed to escape injury. Professor J. Madison Porter has returned from Moosic Lake with the junior civil engineers who spent vacation there laying out a railroad. The Giec Chub has finished its concert tour. , BROWN.

Providence, R. L. April 7 (Special).—The first baseball game of the season was played on Tuesday with the Bostons on Lincoln Field. Considerable Interest was manifested and a large crowd witnessed the contest. Of the strong in-field which Brown has had for three years—Weeks, Jones, Magill and Steere—only Steere is left, and the work shall and Storre-only Steers is left, and the work of Bustard, Donovan and Lowney was watched anxiously. The pitching of Russel had to be tested also. The tearn, as a whole, did good playing, considering that the day was cold and raw. But there is need of stronger team work. The batting was unusually good, and some of the men who were weak at the bat last season found the hall in good shape against the Hoston pitcher. The score was it to 8 in Boston's favor. On Wednesday the game with Andover was not played owing to rain.
